

Hyde County CTP Committee Meeting

July 25, 2011 - 5 PM

Hyde County Administrative Office

30 Oyster Creek Rd.

Swan Quarter, NC 27885

Attendees:

Lauren Nicholls

Steven Lambert

Michael Adams

Scott Walston

Janet Russ

Alice Keeney

A. SURVEYS

The committee reviewed the survey results. 104 responses were received from the Mainland and 138 responses were received from Ocracoke. The biggest concerns mentioned by the mainland were safety, care for special needs citizens, and economic growth. The public's most important transportation issues were public transportation, road maintenance, general safety, and the ferries. Several locations of interest for pedestrian facilities, bike facilities, and road and waterway access were noted. The biggest concerns for Ocracoke were ferries, community rural character preservation, and pedestrian walkways along the harbor. The public's most important transportation issues were ferries (fee, reliability) and road safety. Several locations of interest for pedestrian facilities, bike facilities, and road and waterway access were noted.

B. MAPS

The committee reviewed the 2035 Volume and Roadway Deficiencies Map. There were no roadway deficiencies due to capacity. Cooper Ln, Lazy Ln, and Golden St have flooding issues. Several safety concerns were identified on the map:

- Hodges curve
- Rosebay curve
- Patrick's curve
- Swindell Fork curve
- Nebraska Rd/White Plains Rd
- Bad curve on Turnpike Rd
- Stop control on Turnpike Rd and Swindell Curve
- Goshen Back Rd near the cemetery
- NC 45 needs a guardrail

C. OTHER NOTES

The committee also reviewed the Ferry Traffic Report for 7/10 – 6/11 that was received from the Ferry Division.

D. NEXT MEETING

The next committee meeting is scheduled for 8/22/2011 at 5 pm.
